

VGA / AUDIO PRODUCTS

VGA / Audio Multipliers

VGA Multiplier ▶ Milestone's "VGA MULTIPLIER" is a unit whereby you can send your Pc's VGA output to as many as 2/4/8/12/16 monitors/LCDs/Plasmas with ability to daisy chain for multiple Displays.

MODELS AVAILABLE : • ML 102 VGA • ML 104 VGA • ML 106 VGA • ML 108 VGA
• ML 112 VGA • ML 116 VGA

VGA Audio Multiplier ▶ All the features remains the same as that of VGA Multiplier / Splitter but will have EP stereo audio input which will get multiplied to as many as VGA outputs.

MODELS AVAILABLE : • ML102VGAA • ML104VGAA • ML106VGAA • ML108VGAA
• ML112VGAA • ML116VGAA

RGBHV Multiplier ▶ All the features remain same as that of VGA splitter, except it will have RCA or BNC connector, as per the requirements of the customer.

MODELS AVAILABLE : • ML102RGBHV • ML104RGBHV • ML108RGBHV

XGA Multiplier ▶ Milestone's "XGA MULTIPLIER" is a unit whereby you can send your PC's VGA / XGA output to as many as 2/4/8 monitors/LCD's/Plasmas/Projector with ability to daisy chain for multiple monitors/LCD's/Plasmas/Projectors.

MODELS AVAILABLE : • ML102XGA • ML104XGA • ML108XGA

XGA Audio Multiplier ▶ All the features remains the same as that of XGA Multiplier / Splitter, but will have EP stereo audio input which will get multiplied to as many as XGA outputs.

MODELS AVAILABLE : • ML102XGAA • ML104XGAA

VGA / Audio Switchers

VGA Switcher ▶ Milestone's "VGA Switcher" is a unit whereby multiple CPU's/Laptops 2/4/8/16 VGA inputs can be switched to one/two or multiple (simultaneous) VGA outputs. Most of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE : • ML 102 VL • ML 201 VL • ML 201 VGA • ML 202 VGA
• ML 204 VGA • ML 208 VGA • ML 401 VGA • ML 801 VGA
• ML 402 VGA • ML 404 VGA • ML 802 VGA • ML 804 VGA
• ML 1602 VGA • ML 203 VGA

VGA Audio Switcher ▶ All the features of VGA Switcher remains same. Unit supports stereo audio I/P and O/P. It is used as multimedia switcher which switches VGA and Audio simultaneously. Most of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE : • ML 201 VGA Audio MMS • ML 401 VGA Audio • ML 402 VGA Audio
• ML 802 VGA Audio • ML 1602 VGA Audio

RGBHV Switcher ▶ Milestone's "RGBHV Switcher" has all the features of VGA Switcher. It will have RCA or BNC connector as required by customer. All of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE : • ML 402 RGBHV • ML 802 RGBHV • ML 1602 RGBHV
• ML 401 RGBHV • ML 801 RGBHV

RGBHV Audio Switcher ▶ Milestone's "RGBHV Audio Switcher" has all the features of "RGBHV Switcher". In addition it will carry its respective audio inputs and outputs. All of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE : • ML 402 RGBHVA • ML 802 RGBHVA • ML 1602 RGBHVA
• ML 401 RGBHVA • ML 801 RGBHVA

XGA Switcher ▶ Milestone's "XGA Switcher" is a unit whereby multiple CPU's/Laptops 2/4/8/16 XGA inputs can be switched to one/two or multiple (simultaneous) XGA outputs. Most of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE : • ML 201 XGA • ML 202 XGA • ML 401 XGA • ML 801 XGA
• ML 402 XGA • ML 802 XGA • ML 1602 XGA

XGA Audio Switcher ▶ All the features of XGA Switcher remains same. Unit supports stereo audio I/P and O/P. It is used as multimedia switcher which switches XGA and Audio simultaneously. Most of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE : • ML 401 XGA Audio • ML 402 XGA Audio • ML 802 XGA Audio
• ML 1602 XGA Audio

VGA / AUDIO PRODUCTS

VGA / Audio Matrix Switchers

VGA Matrix Switcher ▶ Milestone's "VGA Matrix Switcher" is 4/8 VGA input to 2/4/8 VGA output Matrix Switcher. Each input & output is individually buffered and any input can be switched to any one or all outputs, without virtually any signal noise between channels. All of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE :

- ML 402 VGA M
- LCD 802 VGA
- LCD 1602 VGA
- LCD 404 VGA
- LCD 804 VGA
- LCD 808 VGA

VGA Audio Matrix Switcher ▶ Milestone's "VGA Audio Matrix Switcher" will have all the features that of VGA Matrix switcher. Unit supports stereo audio I/P and O/P. All of them are compatible to AMX, Crestron Controller.

MODELS AVAILABLE :

- ML 402 VGA Audio M
- LCD 802 VGA Audio
- LCD 1602 VGA Audio
- LCD 404 VGA Audio
- LCD 804 VGA Audio
- LCD 808 VGA Audio

CAT 5 PRODUCTS

CAT5 Products (VGA/Audio/Video)

VGA Over CAT5 ▶ VGA (Video) OVER CAT5 extender : Extend a plasma / VGA / Display device up to 300M / 1000 ft from main device.

MODELS AVAILABLE :

- ML VT 101 (Transmitter)
- ML VR 101 (Receiver)

VGA Audio Over CAT5 ▶ VGA (Video) / Audio OVER CAT5 : Extend a plasma / VGA / Display along with its Audio device up to 300M / 1000 ft from main device.

MODELS AVAILABLE :

- ML VTA 101 (Transmitter)
- ML VRA 101 (Receiver)

VGA Over CAT5 Distributor ▶ Milestone's VGA / VIDEO OVER CAT5 Distributor/ Splitter is a 4/8 port device. The ML VT-104/8 can transmit VGA Signal to 4/8 independent receivers (VR 101) located at 1000ft each on a CAT5 cable.

MODELS AVAILABLE :

- ML VT 104 (Transmitter)

VGA Audio Over CAT5 Distributor ▶ Milestone's VGA / VIDEO / AUDIO OVER CAT5 Multiplier / Splitter is a 4/8 port device. The ML VTA-104 can transmit VGA Signal along with its Audio to 4/8 independent receivers (VRA 101) located at 1000ft each on a CAT5 cable.

MODELS AVAILABLE :

- ML VTA 104 (Transmitter)
- ML VTA 108 (Transmitter)

CONTROL DEVICES

Control Device

LCD Keypad Controller ▶ Selection of channels for all Milestone Products including KVM, Switchers, Matrix Switchers, Relay Controllers and Presentation Switchers.

MODELS AVAILABLE :

- ML SU1

RF Control Unit ▶ A device by which you can control all Milestone Range of products with RF (wireless) remote control having Receiver at one end and Keypad (Remote) transmitter at other end.

MODELS AVAILABLE :

- ML RF 4
- ML RF 8
- ML RF 16

IR Control Unit ▶ A device by which you can control all Milestone Range of products with IR (wireless) remote control having Receiver at one end. Keypad (Remote) transmitter at other end (Optional IR sensor cord upto 20 meters).

MODELS AVAILABLE :

- ML IR 8
- ML IR 16

Wired Keypad Unit ▶ A device by which, a person can control all milestone range of products with Wired Remote Keypad (30 meters), one end of the wire will be connected to Unit.

MODELS AVAILABLE :

- KY - 4
- KY - 8
